

BAND SAW BLADES

LENOX has been developing premium-performance tools for nearly 90 years. That unique depth of experience has brought a command of the science of cutting that's second to none. To make sure you get the best possible performance for your money, our saw blades are constantly tested throughout the design and manufacturing processes.

- High speed steel tooth tips combined with flexible alloy steel backing material results in band saw blades that are the most cost effective choice for most metal sawing applications.
- Engineered to *last longer* than any other blades on the market
- Long Blade Life at High Cutting Rates
- Engineered to Cut Structurals, Tubing and Bundles, High Performance Sawing, Contour Cutting
- Compatible with your Baxter, Hyd-Mech, DoALL Saws and many more
- Will work with customers 1 on 1 to find the blade that is correct for your application
- Westway carries a *wide variety* of different saw blade styles to ensure optimal blade performance in your application.
- *In Stock* at our Mississauga Warehouse
- Ready to ship Immediately !
